PETITION TO _____

TO JOIN THE BOYCOTT OF CANADIAN SEAFOOD

To: _____

© HSUS/Brian Skerry

We, the undersigned, are saddened to see that your establishment is continuing to sell Canadian seafood despite the boycott. In case you are not aware, Canadian fishermen kill tens to hundreds of thousands of defenseless harp seal pups each year in order to make a few dollars from their pelts. These fishermen club or shoot the pups, drag them by a hook in their mouths, even while their conscious, and then skin them. A veterinary study found that as many as 42% were skinned alive. At a time when climate change is putting the species' survival in jeopardy, the Canadian government should be protecting the seals, not spending time and taxpayers' money promoting and facilitating the seal 'hunt'.

We urge you to join the boycott, along with thousands of other grocers, restaurants, celebrity chefs, and seafood distributors.
